

West Seattle Art Tour

Held annually on the third weekend in September, the West Seattle Art Tour showcases a vibrant array of 2D and 3D artists in the very spaces where they create, live, teach, and work. This community-driven event is organized and hosted entirely by the artists themselves.

Each year, more than 50 professional and emerging artists are selected by jury to participate. The Tour features "host sites"—the home or studio of a participating artist—and each one welcomes several additional artists into their space. This collaborative approach makes the experience more accessible for visitors and fosters camaraderie among the artists.

The Tour provides opportunities to learn about the artists' ideas and processes and offers the chance to purchase exceptional artworks, often not found elsewhere. Our goal is to create an event that attracts regional audiences while strengthening and celebrating the local arts community.
